CODE SAMVIKSANA (Code Rush)

It is a code exploration event where the participants have to find the clues for reaching the next level.

This event consists of 3 rounds.

Participant will participate in teams (2 members).

Participants are advised to create their profile at www.hackerrank.com platform

ROUND 1:

- *Raw Code will be given*
- *Debug the code and find the correct output*
- *Right output will give the participants an advantage (Clue/points) for Round 2 and an incorrect output will give them a disadvantage.*

ROUND 2:

- *Solve the given patterns*
- *Find out the clue for the last round from the pattern by applying your coding skills.*

ROUND 3:

- *Coding on www.hackerrank.com platform.*
- *Use of C/C++/Python/Java language(s) is allowed.*
